FERNÁNDEZ-VEGA Y ASOCIADOS

Agencia de patentes y marcas

Fernández-Vega has a long-standing track record in the IP sector. It was founded in Madrid (Spain) in 1992 and over the years has consolidated into a stable team with experience in the many different fields of IP.

In our firm, our job is to advise the public to become familiar with patents by fomenting people to change any preconceived notions they may have in the sense that not only big businesses have interests at stake in patents. Furthermore, our work also involves providing advice to the public with respect to the protection of trademarks as one of the most important assets of the company, no matter how big or small it may be, registration of designs, regardless of the appearance of the product, fight against piracy by encouraging creators to register their works in order to discourage consumers from copying music or buying counterfeit goods.

Some of our core values are the perseverance and persistence used to do our job. We believe in doing things right and to do so, we have a team of professionals and administrative assistants who truly constitute the success of this firm.

Copyright

Intellectual Property protects original literary, artistic or scientific creations expressed in any medium (books, musical compositions, audiovisual works, works of art, computer programs, databases, etc.). Spanish law defends the moral rights granted to authors and artists. These rights are inalienable and pertain to the author or interpreter throughout their lifetime, as well as to their heirs or assigns when they die.

Intellectual Property also protects proprietary rights relating to the exploitation of the protected work or performance and to countervailing duties.

All this requires proper assistance from our legal team that specializes in these matters and is more than capable of responding to need to exploit and protect one of the most important assets the author possesses, avoiding any risk situations that could slow down the normal course of activity.

Our services include:

1. Registration on the legal deposit of General Intellectual Property Registry

2. Legal Advice

3. Legal Certifications, Notarizations and Legalizations

4. Data Protection
